About JELD-WEN

Starting out as a small Oregon Millwork plant in 1960, JELD-WEN today is one of the world's largest manufacturers of reliable windows, doors and millwork. How did we grow from a staff of 15 to a company with over 150 divisions and more than 20,000 employees worldwide? We apply vision for inspiration, planning to give us direction, and hard work to achieve results. This simple formula forms the cornerstone of JELD-WEN, and has earned us a reputation as a company with clear goals, practical methods, and an unrelenting desire to succeed through our own efforts. It's an attitude that never quits.

JELD-WEN believes that investing in dreams turns them into realities. Cooperation, maintaining alliances and facilities in strategic locations are key to our vision of meeting the needs of a worldwide market. Our management-owned company emphasizes cooperation among employees, among our facilities, and among suppliers and customers.
